The vacation of the above described streets has been completed with the exception of approving the assessment rolls of benefits and damages.

Date 6/23/67

The assessment rolls have not been prepared because a sewer easement is required.

The Redevelopment Commission is unable to obtain signatures from property owners because some of the affected lots are still involved in court proceedings. Joslyn Stainless Steels has, therefore, submitted the attached letter which states they will dedicate the necessary easements after they own all of the property.

Assessment rolls of benefits and damages will be submitted for these three resolutions in a few days.

Subject: Rolling Mill Redevelopment Sewer Easements

Gentlemen:

We are most anxious to have the necessary streets and alleys vacated in the Rolling Mill area, and we do understand that the existing sewers in the area will require easements. Therefore, we hereby agree to dedicate, to the City of Fort Wayne, the necessary easements for the maintenance of the existing sewers. We understand that these sewers are those as colored in orange on the attached sewer drawings. We also will grant the necessary easements for ingress and egress for maintenance of this existing Sewage Lift Station.

The balance of the existing sewers within the area will be utilized by us where possible, but will be our own private system. It is understood that we will be responsible for the maintenance and repair on these sewers in the future.

Very truly yours,
